Upon Roll Call, the foregoing Resolution was declared unanimously passed and adopted.

The Trustees were advised that, with the payment of the current obligations of this Reclamation District, there was a balance on hand in the general account in the sum of \$36,086.20 and hold \$375,000.00 in registered warrants with the Bank of Stockton. \$7,966.71 was being held at the County Treasurer in the District's Local Agency Investment Fund (LAIF) account.

The Engineer presented the Trustees with a written report prior to the meeting, which included the following matters:

1. The Engineer reported on the District's participation in the Delta Levee Subventions Program, as follows:
 - A. Fiscal year 2021-22: The District submitted an application in the Program in the amount of \$665,000. An additional \$2 million was recently approved by the Central Valley Flood Protection Board, for a total of \$12 million for FY 2021-22. A final claim was submitted in the amount of \$212,397.57.
 - B. Fiscal year 2022-23: The District submitted an application in the Program in the amount of \$665,000. \$12 million was recently approved by the Central Valley Flood Protection Board for the Program for FY 2022-23.
 - C. Fiscal year 2023-24: The District submitted an application in the Program in the amount of \$665,000.

2. Annual Maintenance: The Engineer provided the Trustees with a list of maintenance items that are currently being tracked.
3. FEMA: MBK continues to coordinate with FEMA and is in the process of compiling documentation supporting the claim. Once all documentation has been provided, FEMA will submit the project to their management for review. claim. Once all documentation has been provided, FEMA will submit the project to their management for review.
4. SB 88: Data is being collected at 38 sites across all four MWD islands. MBK has obtained quotes for the equipment required at the 51 remaining metering sites. It is currently estimated that the purchase orders for this equipment will be placed sometime in July. These flow meters will be installed over the next two years due to the number of sites and levee projects that begin in 2023. An installation schedule has been developed that should not interfere with the levee projects based on their current schedules. In addition, MBK will supervise the levee work at sites with existing measurement equipment to ensure no damage occurs to these devices.
Prior to installation of flow meters, Bovee Environmental identified 3 sites on Bacon Island and 1 site on Bouldin Island that tested positive for hazardous materials on the exterior coating on the pipes. The hazardous materials in the pipe coating at these 4 sites were abated by W.C. Maloney. Measurement devices can now be installed in the abated areas.
MWD and the RDs are in compliance for calendar year 2023 under an approved extension of time. The extension was approved by the Delta Watermaster on January 13, 2022, and will expire on January 1, 2024. The extension of time included a Plan for Compliance which provides details regarding the methods to estimate diversions on siphons without flow meters and provides a measurement equipment installation schedule. MWD currently anticipates that installing all the flow meters will take five years. Therefore, MBK has provided cost estimates for flange magnetic meters with telemetry equipment installed on the water side of all active siphons.
Development of the Delta-wide ACP by the Delta Measurement Experiment Consortium to utilize Open ET for measuring and reporting diversions continues. Place of use polygons for each island have been completed and will be used in conjunction with Open ET to report on diversions. MBK and MWD continue to participate in the Consortium.

The District Superintendent reported to the Trustees that there is still a lot of water on the island, he is working on how to get it pumped off.

Dave Forkel, the District's representative on the Delta Ferry Authority, advised the Trustees that the ferry is running well and there are no matters to report on at this time.

The Chair asked for Public Comment. There being no one present wishing to address the Board of Trustees, the Public Comment session was closed. There being no further business to come before the Board, the meeting was adjourned.
