RESOLUTION RATIFYING AND APPROVING WARRANTS  
AND CHECKS IN PAYMENT OF CURRENT OBLIGATIONS

RESOLVED AND ORDERED by the Board of Trustees of Reclamation District No. 2026 (Webb Tract), as follows:

1. That the Warrants and Checks written since the meeting held on October 23, 2024, and presented to the Trustees at this November 12, 2024, meeting are hereby ratified, approved and authorized, a copy of which shall be attached to the minutes of the meeting, and which is incorporated by reference, are hereby approved.

ROLL CALL:

Ayes: Trustees Neudeck, Ryan and Bradshaw  
Noes: None  
Absent: None

Upon Roll Call, the foregoing Resolution was declared unanimously passed and adopted.

The Trustees were advised that, with the payment of the current obligations of this Reclamation District, there was a balance on hand in the general account in the sum of \$17,677.95 and held \$1,100,000 in registered warrants with the Bank of Stockton. \$8,520.01 was being held at the County Treasurer in the District's Local Agency Investment Fund (LAIF) account.

The Engineer presented the Trustees with a written report prior to the meeting, which included the following matters:

1. The Engineer reported on the District's participation in the Delta Levee Subventions Program, as follows:
  - A. Fiscal year 2022-23: The District submitted an application for participation in the Program in the amount of \$665,000. A total of \$12.5 million has been approved by the Central Valley Flood Protection Board for FY 2022-23. A final claim was submitted in the amount of \$414,596.01.
  - B. Fiscal year 2023-24: The District submitted an application in the Program in the amount of \$665,000. A total of \$14 million has been approved by the Central Valley Flood Protection Board for FY 2023-24.

C. Fiscal year 2024-25: The District submitted an application in the Program in the amount of \$665,000. DWR will be requesting authorization for a total of \$14 million for the Program.

D. Future Subvention Funding: DWR has indicated that funding has not been secured yet for fiscal years 2025-26 and beyond. Delta advocates, including the CA Central Valley Flood Control Association and others, are considering ways to increase awareness and gain support for securing funding for this highly successful and vital program.

2. Annual Maintenance: The Engineer advised the Trustees of the maintenance items that the District is currently tracking.

3. FEMA: The District's claim is currently under review at FEMA. MBK will continue to check in with FEMA personnel regarding status updates. The total claim amount is \$65,256.11.

4. SB 88: All Phase 4 meters have been installed and certified by MBK Engineers. Data is currently being collected at 37 sites across all four islands. MBK will continue to monitor all sites weekly through Wildeye's website. All Wildeye units are currently working with the exception of (1) Bouldin Island Siphon No. 30, and (2) Bouldin Island Siphon No. 24. Bouldin Island Siphon No. 30 was damaged by driftwood (equipment will be reinstalled when Phase 5 installations occur at nearby siphons). The data collected at Bouldin Island Siphon No. 24 is not being recorded correctly in Wildeye, which is due to a configuration issue. MBK will contact Wildeye to try to resolve the issue. All meters are currently working, with the exception of (1) Bouldin Island Siphon No. 2, (2) Bouldin Island Siphon No. 26, and (3) Bacon Island No. 25. MBK worked with Technoflo to acquire a quote for a 14-inch conversion kit for Bouldin Island Siphon No. 26, which has been sent to MWD along with a request for further instruction on how to proceed.

All Phase 5 flow meters are staged for installation on Bacon Island. Phase 5 bidding has closed and MWD staff have selected a contractor. Construction is set to begin after November 18 for Bouldin and Webb. A separate request for proposals will be opened at a later date for Bacon and Holland. The phase 5 telemetry equipment has been purchased and will be delivered at the time of installation, following flow meter installations at each site.

MBK has provided MWD staff with a draft summary technical report on the 2023 OpenET and measured diversion comparison for review and is developing a similar comparison for 2024.

MBK is currently preparing Water Year 2024 annual reports and will provide draft reports for review by MWD staff by the end of the year. On October 18, MBK provided MWD staff draft language to be included in the 2024 annual reports for review. MWD staff will provide MBK crop acreages for each of the islands to be included in the annual reports.

Russ Ryan, the District's representative on the Delta Ferry Authority, advised those present that the Ferry will need to go in Dry Dock in October 2026.

There being no other business to come before the Board of Trustees, the meeting was adjourned.
